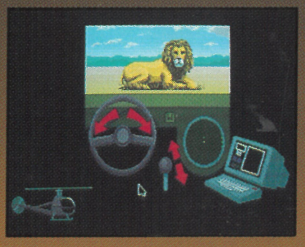
Plains



Go Anywhere in the Jungle for Exciting Sights and Sounds!

Take an interactive journey into the African jungle where you control what you want to see, read, and hear. All ages can investigate more than 80 animals and plants in this new CD-ROM disc which represents the latest in interactive, multisensory learning technology. Upon discovery of an animal, the following options may be chosen:

- **See and hear the name of the animal or plant on the screen.**
- **Read and listen to a recorded narration describing the animal.**
- **See a picture of that animal's baby offspring.**
- **Ride in a jeep, riverboat, and helicopter to search out wildlife.**

Using the mouse you can either walk or drive to search out wildlife in four habitats: The Plains, Tall Grass, Rain Forest, and Riverfront. Take a jeep, helicopter, or riverboat to browse and explore these areas at your leisure.

- **A real human voice and color high-resolution graphics create a lifelike adventure.**
- **Choose from 4 natural habitats in the simple, easy-to-use format.**
- **Learn about more than 80 animals and their babies. Included are such animals as cheetah, impala, giant frog, kudu, and giraffe.**
- **Printing option provides "photographs" of some of the wonderful creatures met on safari.**

Talking Classic Tales

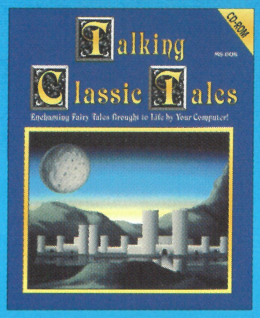
The Elves & the Shoemaker

Rumpelstiltsken

The Queen Bee

The Frog Prince

Puss in Boots



Superb animation, creative sound effects, music, and delightful illustrations join an inspired interpretation of text to form a unique CD-ROM program. The five tales are narrated in their entirety and may be read straight through or page by page. Difficult words are pronounced and defined. Readers explore at their own pace, clicking the mouse to "turn the page." Narration, full-color high-resolution graphics, and sound effects are seamlessly blended to create a hypnotic journey through the fairy-tale landscape. "ACTION" buttons allow users to activate amusing animated sequences that motivate young readers and improve comprehension. This CD contains a perfect harmony of sight and sound ensuring a rewarding reading experience for users of all ages.

- ✧ *Full Narration and Definition Library*
- ✧ *Lively Sound Effects and Music*
- ✧ *Full-Color High-Resolution Graphics and Sophisticated Animation*
- ✧ *User Controls the Pace of Each Story with the Easy-To-Use Interface*
